AT LAST - HERE IT IS

Well, it's been a long time coming, but at last it's arrived — the 1958 edition of the Graduates' Directory.

Its publication represents a lot of blood, sweat and tears and, of course, names, but it naturally couldn't have been accomplished without your cooperation. The editorial board was pleased with the returns on the questionnaires sent out with the last assessment drive. It was these answers that made this directory possible.

As you scan the directory you may feel that there's room for improvement. We on The Postgrad staff may agree with you. Since this is our first venture into the directory field, we hope that you'll bear with us.

The task of compiling a directory of this type is a gigantic one. A university's alumni would seem to be the "movingest" group of people anywhere — at least that's what it appears to us. We've double-checked names, addresses etc. against our association's files. We've attempted to make corrections up to the last moment. The time lag between receipt of the completed questionnaires and the publication of the directory (it took months of planning) also left us open to a number of possible errors. I hope we'll be forgiven if there are any.

We would appreciate any member of the alumni letting us know of any errors. Please advise the alumni secretary, 1435 Drummond St., Montreal, and we'll make the corrections in our files.

We hope to make this an annual effort. The association feels that these editions will help to bring our graduates closer together and give you an idea of what the other fellow's doing.

We're even looking forward to bringing out the next one — In the meantime we hope you'll enjoy glancing through this initial effort.

**Opportunity doesn't know
how to knock -
but you do ...**

Who said "Opportunity Knocks" ?

Inferring of course that all we have to do is sit still and wait for "Opportunity" to amble around the proverbial corner.

It never does. You and I have to do the knocking.

If you have the capacity to develop and to assume responsibilities, then opportunities are everywhere—particularly in Canada.

At Canadian Ingersoll-Rand there are a wide variety of careers to choose from. Production, Marketing, Engineering, Accounting... these are just a few of the many stimulating fields.

You can find out about these opportunities by knocking at the door of C-I-R's personnel manager. He'll be glad to talk to you. Or if you're busy studying for an exam, drop him a short note to ask about details. Here's the address:

**THE PERSONNEL MANAGER
CANADIAN INGERSOLL-RAND CO. LTD.,
620 CATHCART ST., MONTREAL, QUEBEC.**

**Canadian
Ingersoll-Rand

He had to be quiet . . .

This man is one of a team of despatchers in the C.N.R. Central Station, Montreal. The safety of thousands of passengers depends on him, and others like him, as trains are routed through the maze of C.N.R. tracks. Such responsibility calls for experience, concentration and above all quiet.

When the new Queen Elizabeth Hotel was being built directly above his head a special problem arose. How to erect this large steel structure without distracting noise so that railway operations could be safely continued. Dominion Bridge engineers, working closely with C.N.R. officials, met the challenge. Riveting was virtually eliminated and special field erection procedures were evolved, using welding and bolting.

Once again steel provided its versatility in the solution of a pressing construction problem.
